

# CLAIM SCRUBBER

Improve claim accuracy.  
Speed up your insurance payments.

Wish you could solve issues with your insurance claims before they slow down your payments? Is your biller tired of the endless, tedious tasks of claim scrubbing?

## A BILLING BUDDY FOR CLAIM SCRUBBING

Claim Scrubber is an automated, technology-based, eyecare-specific solution that analyzes insurance billing claims *before* your biller submits them to the clearinghouse or payer. This tool, designed by eyecare billers and used for hundreds of practices, ensures that your claims are accurate and complete.

Accuracy translates to fewer denials. And fewer denials translate to a healthier AR and better cash flow.

## 6 REASONS TO MAKE CLAIM SCRUBBER YOUR BILLING COMPANION

- 1 It speeds up your insurance payments.** Automated scrubbing leads to fewer denials, fewer delays in payments, and improved accounts receivable. It's money in the bank, on schedule.
- 2 It's a claim-scrubbing shortcut.** Your claims get scrubbed easily. If an error is found, Claim Scrubber highlights the field that needs correction with a recommendation for a fix.
- 3 It solves problems before they become big problems.** Stay ahead of potential claim errors and rejections. Claim Scrubber allows you to catch and resolve issues before they slow down your insurance payments.
- 4 It helps your team continually improve.** Track your clean claim ratio, rejection reasons, and error trends with user-friendly dashboards.
- 5 It can be customized for your practice.** You can add specific payer rules unique to your practice, ensuring compliance for your state's specific requirements.
- 6 It comes with a knowledge base of scrubbing rules.** Claim Scrubber has a wealth of insurance payer knowledge. Our comprehensive library of rules developed from working with hundreds of eyecare practices ensures that you have the data to make your claims accurate and complete.
