

# INSURANCE AR MANAGER

Shorten the Journey of Your Aged Claims. Get Paid on Time.

Every insurance claim takes its own journey.

It begins with a patient visit and ends when the payment hits the checking account of your eyecare practice. At least that's true for the successful claims.

Some lose their way in the journey, however. And never get paid, leading to unnecessary write-offs.

OneSpot's Insurance AR Manager is the ultimate workflow tool to shorten the journey of your aging claims. And make sure your claims get paid on time.

## WHAT IS INSURANCE AR MANAGER?

It is a centralized, digital billing hub to manage your aging claims. It streamlines your insurance billing operations so that you can stay on top of your aging claims and get paid more quickly.

Insurance AR Manager is a tool that your biller will use every day to manage your AR. You will use it to gain a clear picture of your insurance billing operations and to monitor your biller's activities.

## 4 BENEFITS OF INSURANCE AR MANAGER

- 1 Streamlined Operations.** Insurance AR Manager focuses on your aging claims. It provides your billers with a systematic way to attack the claim resolution process. The structure of daily tasks and priorities ensures your claims get processed systematically so you improve your AR.
- 2 Visibility.** Insurance AR Manager provides you with dashboards to help you manage the critical AR process of the practice. A clear picture gives you confidence that your insurance payments are on their way to your checking account.
- 3 Monitoring Tool.** Now you can monitor your biller's daily work to make sure he or she prioritizes what's most important. Information about each aging claim is at your fingertips.
- 4 Access to Payer Information.** With Insurance AR Manager, you gain access to an extensive database of insurance payer information. No more searching Google or another search engine for specific payer information. Everything your practice needs to manage your claims is at your fingertips.
