Cleinman Performance Partners Selects RevCycle Partners as a Referred Vendor

Partnership supports Cleinman objectives of helping private optometry practices grow and succeed.

CHICAGO, IL – Cleinman Performance Partners, the business development consultancy for larger optometry practices, has selected RevCycle Partners, a revenue cycle management (RCM) company serving eye care practices, as their referred revenue cycle management vendor. Cleinman works exclusively with larger private practice optometrists, providing solutions for virtually any business issue faced by practice owners. RevCycle Partners extends the Cleinman solution set to include core RCM disciplines including insurance billing, credentialing, and benefits verification.

“Cleinman Performance Partners has been a premier optometric consultancy for 30 years,” says Paul Hartge, co-founder and CEO of RevCycle Partners. “We are thrilled to work with the Cleinman team to assist their client/partners with optimizing their RCM processes.”

“We are excited to partner with RevCycle Partners,” says Alan Cleinman, Founder and President of Cleinman Performance Partners. “We are always looking for ways to help our clients drive efficiencies and improve effectiveness; RevCycle’s suite of RCM solutions gives us tools to help practices achieve operational efficiencies and drive growth.”

RevCycle Partners provides outsource services for medical and vision insurance billing, AR recovery, credentialing and recently announced patient benefits and eligibility verification. At a time when hiring, training and staff retention are challenges across the eyecare industry, outsourcing RCM responsibilities offers private practices a strategic alternative, enabling them to focus on their core competencies.

Cleinman highlighted RevCycle Partners’ credentialing capabilities: “We assist many clients with transitioning, and these transitions inevitably require insurance credentialing. We are pleased to be able to lean on RevCycle for its expertise in this area.”

The mission of RevCycle Partners is to fight for what's due for both doctors and patients, creating greater efficiency and contributing to a positive, ongoing doctor-patient relationship.
