

WeVerify™

Eligibility and benefits verification that confirms patient benefits before their visit.

Comprehensive Benefits Verification to Drive Practice Revenue

Many eyecare practices with busy staff and minimal training dabble in eligibility verification, but the process is patchy and incomplete.

RevCycle Partners' comprehensive eligibility verification process gives your team a complete and instant picture of the benefits available for each patient.

A complete picture of your patients' insurance benefits will strengthen your relationship with them—and generate new revenue opportunities for your practice.

- ✓ **Clarity.** Gives your team instant clarity about patient and insurance payment responsibility – before the visit.
- ✓ **New Revenue.** Generates new revenue opportunities for the practice by showing patients' unused benefits for additional services or eye wear.
- ✓ **Trust.** Builds trust with your patients, providing instant transparency on patient responsibility.
- ✓ **Correct Co-pay Fees.** Enables your team to collect up front the correct co-pay amount.
- ✓ **Billing Efficiency.** Shortens the account receivable cycle by correctly billing the insurance company the first time.

“This service will be like recall. Every practice will need it.”

WeVerify User**

WeVerify™

**\$3.75
Per
Patient***

- Covers both Medical and Vision Payers;
- Gathers the necessary insurance benefit data for each patient two days prior to the office visit;
- Delivers detailed benefits information that is visible to you and your staff inside your PMS;
- Includes the verification of patient eligibility, deductibles, co-pays, and co-insurance;
- Provides your staff with a clear picture of unused benefits;
- Identifies benefits and plans unknown to the patient, such as vision riders, inside his or her insurance plan; and,
- Provides data for coordination of benefits.

*RevCycle Partners offers tiered pricing, based on the number of monthly patient verifications.
