

THE HIDDEN COSTS OF AN IN-HOUSE BILLER

Does it make financial sense to outsource your insurance billing?

THE MATH SEEMS SIMPLE ENOUGH.

Compare outsourcing costs with what you are paying a part-time biller. Outsourcing seems more expensive. But is it, really?

For some practices, outsourcing to RevCycle Partners lowers the fully loaded costs for an insurance biller by up to 25%.*

5 QUESTIONS TO ASK WHEN DECIDING TO OUTSOURCE YOUR RCM.

1

Did you add in the extra cost for covering your biller while he or she is on vacation or out sick?

2

Did you add in the expense of the time it takes to hire and then train a new biller?

3

Did you add in overhead costs for payroll taxes and any benefits you provide?

4

Did you add in unnecessary write-offs because your biller gave up pursuing the claim?

5

Did you add the lost claims due to timely filing because your biller was busy with other tasks?

“It’s much less expensive than paying an employee to do the work. RevCycle Partners has been very responsive to any concerns which is important when it comes to money!”
